

## **Turning Waste to Cash in Wisconsin**

Remaining Subcommittees and Topics for Discussion

### **Industrial Energy Efficiency**

1. Develop a strategy for IEE workforce development.
2. Develop strategies for benchmarking and EM&V for IEE projects.
3. Evaluate the Focus on Energy Strategic Energy Management program and develop a long-term, sustainable plan for inclusion in the Wisconsin Action Plan.

### **Combined Heat and Power**

1. Develop a Permitting and Regulatory Cookbook to clarify the many requirements for AD system operation for perspective system operators/owners.
2. Develop an outreach and education strategy for CHP to be included in the Wisconsin Action Plan.
3. Develop a document that outlines the role of CHP in improving critical infrastructure resiliency and mitigating the impacts of an emergency in Wisconsin by preventing interruptions in electricity service.

### **Industrial Energy Efficiency and Combined Heat and Power Joint Subcommittees**

1. Develop a strategy for securing financial assistance for IEE and CHP projects in Wisconsin.
2. Focus on education and outreach strategies that involve best practices, better plants, demand response, and IEE/CHP policy promotion.
